SUPER WARNING WHIP

PRODUCT INFORMATION BROCHURE

PICTURED: AP WHIP IN USE

⚠ WARNING: This product can expose you to chemicals including Nickel Compounds, which is known to the State of California to cause cancer and birth defects or other reproductive harm.
For more information go to www.P65Warnings.ca.gov.

CHECKERS™ WARNING WHIPS are designed to increase the visibility of utility vehicles and small trucks on mine sites. Without a whip for extra visibility, haul truck operators can have difficulty seeing these smaller vehicles, potentially leading to accidents. To protect employees, vehicles and equipment, choose a Monster Warning Whip.

- **CHECKERS™ Warning Whips are manufactured in the USA, in Broomfield, Colorado**
- **Utilized in mine sites around the world**
- **Protect employees, vehicles, and equipment by attaching a whip for increased visibility**
- **Our whips feature a fiberglass resin construction, designed to withstand harsh environments**
- **With sizes ranging from 3 ft. to 12 ft., our whips ensure visibility**
- **We offer extensive lighting options, with a variety of flash pattern options**
- **Long lasting LEDs reduce replacement costs**
- **A variety of mounting options for all types and sizes of vehicles**
- **LEDs feature a waterproof housing to improve longevity**
- **Top of the line LEDs which feature up to 500 lumens to maximize visibility**

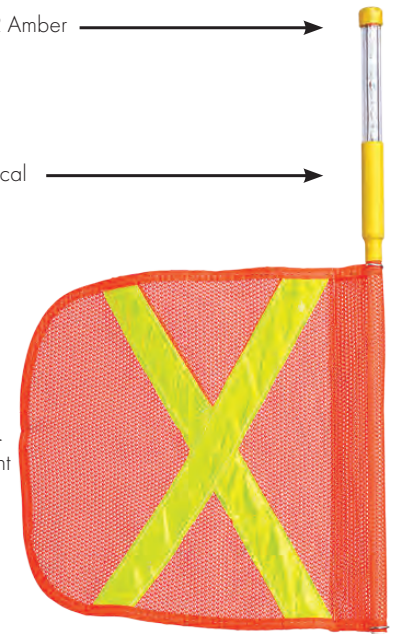

CHECKERS™ SUPER WHIPS with stainless steel threaded mounting base are designed without a lamp socket connection to eliminate failures often caused by socket corrosion. They include a sealed electrical connection with 18" pigtail, premium fiberglass resin whip, Heavy Duty Day Bright™ Florescent orange flag with yellow 3M® Scotchlite® reflective X, and a ultra heavy duty spring mount. These whips are wired with a high quality power cable that is integrated directly into the whips, which eliminates potential breaks to the internal wires. They also include a polyolefin heat-shrink tubing to contain the fiberglass and prevent personal injury from fiberglass deterioration or fractures in the fiberglass whip. Super Whips® are engineered with a cold temperature rating of -75° C/-103° F.

- 3, 5, 6, 8, 10, or 12 foot lengths available
- Includes heavy duty spring mount
- Heavy duty DAY BRIGHT™ Florescent orange nylon mesh flag with yellow 3M® Scotchlite® reflective X
- Whip constructed of premium fiberglass resin
- High-quality continuous power cable from light to base

12-24 Volt, 12 Amber LED Light

Sealed Electrical Connection

Heavy duty DAY BRIGHT™ Florescent orange nylon mesh flag with yellow 3M® Scotchlite® reflective X

APPLICATIONS

- Civil Engineering and Construction
- Mining
- Oil and Gas
- Infrastructure and Utilities Maintenance
- Transmission
- Heavy Industry

APPLICATIONS

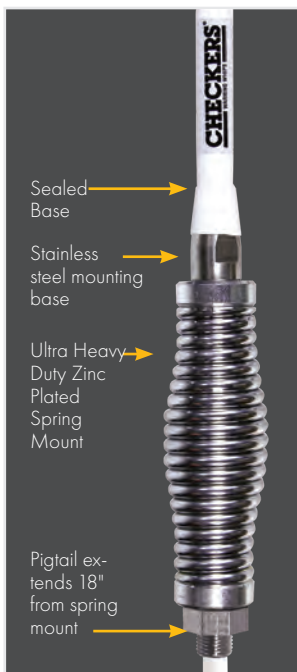

12" x 11" w/ X

- SW12
- SW10
- SW8
- SW6
- SW5
- SW3

Spring mount with 1" threads

Sealed Base
Stainless steel mounting base
Ultra Heavy Duty Zinc Plated Spring Mount

Pigtail extends 18" from spring mount

Continuous power cable from LED to mounting base

Polyolefin heat shrink tubing to prevent fiberbloom and fractures from top to bottom
